Product Announcement MapSource™ MetroGuide USA Update

GARMIN is pleased to announce an update to **MapSource™ MetroGuide USA**. The MetroGuide CD-ROM will contain updated map data for any region in the continental USA, including Alaska and Hawaii. In addition, MetroGuide will now perform automatic route calculation on the PC. MetroGuide USA contains detailed residential street-level detail for all 50 states, and includes both residential and business addresses as well as points of interest listings such as restaurants, hotels, entertainment, emergency and governmental services and more! Compatible GARMIN products include: eMap, eTrex Legend, eTrex Vista, GPS V, StreetPilot, ColorMap StreetPilot, StreetPilot III, GPSMAP 76, GPSMAP 176, GPSMAP 182/188/232/238/2006/2010 and GPSMAP 295. A GARMIN data card is required to store map data for some units.

UPDATE POLICY: GARMIN will provide a coupon via our Web site at www.garmin.com/metroguide/update/ that will allow users who have purchased the CD from June 1, 2001 onward to receive a FREE update valid directly from GARMIN.

For those customers who purchased an older version of MetroGuide between August, 1999 and June 1, 2001, the end customer will be entitled to a discounted update directly from GARMIN, for \$49.95, plus tax and shipping.

Features of MapSource™ MetroGuide USA include:

- ¥ Updated map detail, as provided by our data supplier Tele Atlas, for freeways, interstates, national and state highways, local, county and residential roads for all 50 states. Not limited to major metropolitan areas.
- ¥ Map detail contains attributes for automatic routing on the PC. For compatible units, such as the GPS V and StreetPilot III, automatic routes can be generated at the unit level as well.
- ¥ Interstate exits are displayed using MapSource™ MetroGuide USA.
- ¥ Graphic symbols are used to denote business listings including restaurants, hotels, entertainment, emergency services and more.
- ¥ With data loaded from the MapSource MetroGuide CD to a compatible GARMIN GPS mapping product, you'll be able to drive to any city address contained in our huge database using an electronic map that shows street-level detail.
